

Website Cookie Policy

Cookies are files stored in your browser and are used by most websites to help personalise your web experience. Some features of this website will not function if you do not allow cookies or have cookies disabled.

For the best experience using this site, we recommend using an up-to-date browser with JavaScript enabled and accept cookies.

Overall

This website makes use of essential session cookies to provide you the visitor with a service.

We have automatically set a session cookie so you can use this website and service. If you do not want this cookie set, then please follow the link at the bottom of this page or manually delete the session cookie at any time by following the instructions in your browser.

By continuing to use this website you give implied consent that we can store other cookies on your computer to provide you with this service.

We will store some third party cookies to provide us with analytical data about who visits this website (anonymous visitor data, we cannot personally identify you), how they find us, and how long they use the site for.

We do not use any information to track you, or personally identify you, we are only looking at summary data, always anonymous.

Cookie information

Session cookie

We automatically set a session cookie in order for you to use this website or service. This session cookie is essential for the correct operation of this website and service. If the session cookie is not available, you may not be able to use some or all of the features of this website or service.

The session cookie stores some basic information about your current status such as whether you are logged in and previous search information e.g. registration numbers and filters.

A session cookie only lasts as long as your current browsing session and is typically removed or deleted by your browser when you stop using this website or service. You can manually delete your session cookie at any time by following the instructions in your browser.

Third-party cookies

This website makes use of Google Analytics. If you allow cookies by clicking on the 'Allow' button, then we will allow Google Analytics to set a cookie which allows us to view anonymous visitor data so we can improve this website or service to you. We typically make use of the overall visitor counts, the search parameters users used to find us and the amount of time a user spent on the site. You can manually delete this cookie at any time by following the instructions in your browser.

Background information

The 2003 Regulations implemented a European Directive - 2002/58/EC - which is concerned with the protection of privacy in the electronic communications sector. In 2009 this Directive

was amended by Directive 2009/136/EC. This included a change to Article 5(3) of the E-Privacy Directive requiring consent for storage or access to information stored on a subscriber or users terminal equipment - in other words a requirement to obtain consent for cookies and similar technologies.

Governments in Europe had until 25 May 2011 to implement these changes into their own law. The UK introduced the amendments on 25 May 2011 through The Privacy and Electronic Communications (EC Directive) (Amendment) Regulations 2011.

The rules in this area are essentially designed to protect the privacy of internet users - even where the information being collected about them is not directly personally identifiable. The changes to the Directive in 2009 were prompted in part by concerns about online tracking of individuals and the use of spyware. These are not rules designed to restrict the use of particular technologies as such, they are intended to prevent information being stored on people's computers, and used to recognise them via the device they are using, without their knowledge and agreement.

How to remove cookies

Each browser has a different way of removing cookies, please search for [How to remove cookies](#) in your favourite search engine to find the instructions.
